**CIRCULAR DG/N°0005/04/2022 ADDRESSED TO FORWARDERS, CUSTOMS AGENCIES,
LOADER, FERRI AGENTS AND OGEFREM REPRESENTATIONS**

Subsidiary to the decision N° 002 modifying the FERI-AD-FERE tariff grid of April 08, 2021, and in order to harmonize with the tariffs of the bulk category while lifting the existing distinction between the bulk and the packaged or broken bulk; the following recommendations will be applied as of the date of signature, and this with regard to the close reading of the transport documents (B/L, LTA and consignment note) accompanying the goods.

It is about:

- Dry and liquid bulk to be invoiced at 0,5 Euros /T or m3 to the advantage of OGEFREM.
- Dry and liquid break bulk to be invoiced at 4 Euros /T or m3 to the advantage of OGEFREM (except for the basic necessities listed and annexed to the above mentioned decision N°002).

in addition, it is to be noted that coal is not part of fuel and that it is charged at 4 Euros / T or m3 to the advantage of OGEFREM.
